

SILVER SPRING CAMERA CLUB • BOX 709 WOODMOOR STATION • SILVER SPRING, MARYLAND

DECEMBER 1978 SNOW WHAT?

CABLE RELEASE

SLIDE MEETING

DECEMBER 7th 7:45pm
SILVER SPRING LIBRARY

The speaker for the evening is Jim Steele, who does commercial photography as a hobby and a second profession. Jim has experience in industrial photography, portraits, etc. He will speak to us on his swinging light pictures. These are abstracts produced by exposing color film to a series of colored lights swinging on a pendulum. He has presented a similar program at the GWCCC seminar and other area workshops.

PRINT MEETING

DECEMBER 21st 7:30pm
NORTHWOOD HIGH SCHOOL

At this meeting the print meeting theme for the remainder of this year will be inaugurated "How to Take Satisfying (Prize-Winning) Pictures." Our friend of long standing, Marty Miller, will initiate the program by helping us better know what a prize-winning picture is. He will use 5 pictures which have won a total of \$16,000 to illustrate the basic principles of composition, ie the points judges look for! During the judging Marty will suggest how you can rise above the level of mediocre (if that is where you are) to achieve prize-winning stature. If you want to find out about some of Marty's accomplishments that qualify him to help us become prize-winners, come to this meeting. ****note**** Harold Sampson, 262-0919, the new Print Program Chairman wants your suggestions for future guest speakers.

COLOR SLIDE COMPETITION

Nov. 1978 - Category: Open

"SPACE CADET" by Joe Davis, SSSC

The November monochrome meeting was a star-studded affair! Chris Heil and Skip Waters received their first stars (congrats, Chris and Skip) and Lois and Rudy Schuetzler each received five-star plaques.

A member of the club, Fred Figall, was speaker for the evening. Fred dealt informally with a variety of subjects in the question and answer format, which proved extremely interesting.

Last, but far from least, Garry Kreizman held a workshop on Visual Perception. Garry shared with us some of the points which had been encompassed in his studies in Experimental Psychology during his college and grad school year as applied to photography.
