#### Slide Meeting -- December 3

The monthly Slide meeting will be held December 3rd, 7:45 PM at the Sligo Creek Community Center. The speaker and judge for the meeting will be Stan Klem (current SSCC director, portfolio chairman, and projectionist). For the past 10 years, Stan's photographic passion has been in portraiture. He will discuss his own personal and simplistic approach to photographing people in controlled settings. Stan will show us how he uses natural window light as well as a one-light artificial setup. He will also discuss backgrounds, bounce lighting, filling shadows and posing the model.

Slide competition subject will be portraiture.

# It is Auction Time Again!!

Time to think about the 1988 auction. It'll take place at the Sligo Creek Community Center (the site of our monthly slide meetings) on Thursday January 7th, 1988 in lieu of a slide meeting and slide competition.

The starting time is 7:30 PM but it is to your interest to come even earlier to inspect the merchandise and to make certain your own items are properly marked and displayed. Art Yellin and Mike Traynor will again be the auctioneers.

Invite your friends along to browse, bid, and buy, although only paid-up members may offer items for sale. SSCC gets 10% of the proceeds from each sale; the seller gets the rest, except that the minimum commission is 50 cents and the maximum is \$10, no matter what the selling price is. You may, of course, donate to the club the entire proceeds of the sale of any item.

More details will be furnished at the December club meetings and in the January Cable Release. In the meanwhile, start looking through your photographic equipment and supplies for those surplus, unused, items that some fellow photographer simply cannot do without.

# Print Meeting -- December 17th

The December Print meeting will be held Thursday December 17th, 7:45 PM at the Longbranch Public Library. The speaker and judge will be Saverio J. Grimaldi, a past Silver Spring Camera Club member and now successful professional wedding and portrait photographer.

Saverio has been deeply involved in photography since 1971. As with most photographers he became very interested in image making very quickly. Next, he pursued a more technical approach to photography and attended classes at the University of Maryland in cinema, film making, and dark room developing and printing.

After two years in the Silver Spring Camera Club, Saverio decided to apply his interests to a full service wedding and portrait business. He says that the camera club was a great experience and the people in the club were terrific photographers.

Currently, Saverio, and his wife Patricia, photograph about 20 to 25 weddings a year. Patricia is the studio manager, assists on the wedding day, and handles their studio appointments and ordering while Saverio concentrates on imaging making, composition, and style. Saverio is now an officer of the Maryland Professional Photographers Associations and has receives several honors and awards since joining the association.

Monochrome print competition subject will be portraiture. (No subject category for color prints.)

#### The Numbers Tell the Story

The proof of the pudding is in the numbers! They show that SSCC field trippers are more interested in weekend or longer trips than they are in the one-day stints. The number of participants in the last two weekend trips, the three or four-day Fall Color Trip and the three-day Chincoteague Nature

Trip, were 24 and 30 respectively and the even longer Maine trip attracted 24. These longer trips accounted for 1/4 or more of the club total membership in contrast to an average of 10 to 15 on the one-day trips. The numbers are loud and clear. Perhaps it is the opportunity to rise at 4:00 or 5:00 AM to photograph the sunrise and the early light. Perhaps it is the togetherness at breakfast, lunch, and dinner, and the evening of games and good conversation. Whatever it is, the longer field trips evidently have the photo edge .... its all in the numbers.

# Edna Knopp, Field Trip Chairman

By the way, it is <u>not</u> the same 1/4 of the club each time. About half of the club seems to be actively participating in the longer field trips. Editor

# Welcome to Nine More New Members

With the following nine new members added to those previously reported, SSCC now has a total of 115 members for the 1987-88 year:

Bill Cooper, Silver Spring, MD; Joseph and Margaret Gentile, Germantown, MD; Edwin and Joy Foster, Olney, MD; Milton Seidel, Silver Spring, MD; Leon Wahrhaftig, Wheaton, MD; Maxwell Strange, Fulton, MD, and Bob York, Washington, DC

From Ed and Joy Foster it was nice to hear that they chose SSCC over one other club because we were friendlier. Ed and Joy bring a lot of photo background with them -- most recently from Manhattan where they were members of a camera club. They are also members of PSA.

Currently, photography is a hobby for both. Joy first picked up a camera seven years ago. She concentrates on slides, most particularly of nature subjects. Ed has been making pictures for thirteen years, including a four-year period operating a professional studio in a small town in Florida, specializing commercially in photojournalism, portraits, and landscapes. He works in all camera formats, in both slides and prints. The Fosters first learned about us at their public library.

Those attending the print meeting on November 19th had to be impressed with the achievements of new member Maxwell Strange who pulled the hat trick of a 1st, a 2nd, and a 3rd in the Novice Monochrome competition. Maxwell also does slides. He has been in photography -- seriously, that is -- for six years, is also a member of a small camera club at Goddard Space Flight Center where he works as an electrical engineer. He is not too long removed from Greenfield in Western Massachusetts which is, he insists, still one of the best places to vist (revisit) for good photography.

# **Trite Judging**

If photographs, or even scenes, can be trite, by golly so can judging and judges! I've just returned home from the November Print Meeting and I am frothing at the mouth. Our judge was personable and an extremely articulate describer of the technical faults of works ousted for that reason. However, when he came to a photo (one of mine, of course) of a young lad fishing, he described it as an appealing scene. He added, however, that it was this very appeal which made the photo "trite."

This comment on "triteness" followed a rather lively (and encouraging) pre-judging discussion of some of the common faults of judging. One of the very worst, in my humble and ego-deflating opinion, is the loss of sight of the fact that each competition is (or should I say "should be") a comparison of the im-

mediate entries against each other.

I am really curious to know how many of our members agree with me and how many agree with certain judges who say things like "this has been done many times before," and "Ansel Adams did it better." For argument's sake, you have traveled to the Southwest and happen to be in the same place and the same time of year, for the "Moonrise, Hernandez, New Mexico" shot. To continue the

scenario, you struggle with your gear, light meter and all, and manage to get a great negative. You print it to perfection and enter it in your club competition. How do you want that photo judged? Against the others present, or against Ansel Adams' work? Whatever you answer, why? Now let's complicate the issue further by adding that your negative is so perfect that it requires no manipulation of any kind. A straight print which approximates the famous, highly manipulated, "Moonrise, Hernandez." Now, how would you like the print to be judged? Remember, the judge has no idea how your print was produced!

If you have a strong feeling on this subject, either way, drop me a legible note. I will honestly and fairly present all opinions received in a future

column.

Arthur K. Yellin 16904 Vine Court Olney, MD 20832

How about some comments? I hear lots of people with opinions on judging of various sorts. Lets get some of them down on paper. (We'll omit names if you wish.)

# Montgomery County Juried Art Exhibition

The 12th annual Montgomery County Juried Art Exhibition will soon be accepting entries of sculpture and prints for the Chase Awards. The competition will be open this year to photographs. Cash prizes will be awarded to 1st, 2nd and 3rd place in each category. The competition is open to any artist over the age of 18 who lives or works in Montgomery County. Applicants should submit their works on January 30th 1988. Prints and sculpture accepted for the exhibition will be on view at Strathmore Hall from March 11 to April 8. The opening Awards ceremony will take place on March 10th at Strathmore.

To obtain a detailed prospectus call the Arts Council office at 530-6744 after December 1.

#### Retouch Workshop Tuesday Dec 15

The retouch workshop will again be held at the home of Neil Waldrop at 7:30 PM. We will continue to use dyes and then add the necessary spray. The pencils and then oil will be added, both transparent and opaque. Please bring both color and black and white mounted prints to work on.

The black and white print needs to be on the flat side, but the highlights need to have full detail. If the black and white print is too dark the transparent oils will not be discernable on the print. Also allow for something in the image to be removed with opaque oils, such as the background or some object. In a landscape it could be a road sign or debris, in a portrait it could be a bad front tooth or closed eyes, etc.

Try and bring extra prints to work on as each person will go at their own pace and some prints will naturally take less time than others. If you have any extra brushes or other retouch material be sure and bring them for your use. See you all at Neil's and again let's have some fun.

# Oh That Pumpkin Cheese Cake!!!

The refreshments for the November Slide meeting included an unforgettable dessert -- a pumpkin cheese cake. The maker was Pam Talbot who has kindly given us permission to publish her recipe.

1/2 box ginger snaps, crushed, plus 1/2 stick butter, blended well. Pat into bottom of spring-form pan.

1/2 box crushed ginger snaps and 1 stick butter, blended well. Press onto sides of spring-form pan.

3 8-oz pkgs cream cheese

small can pumpkin (not pumpkin pie filling)

2 tsp cinnamon

1 tsp nutmeg

2 cups sugar

3 extra large eggs

Blend above items well. Pour into crust and top with pecan pieces. Bake at 350° for 1 1/2 to 2 hrs. Cool in oven. Enjoy

# Thanks Edna!!

A roaring thank you is in order to Edna for the great job she is doing on the field trips. I recently attended the overnight Chincoteague Nature trip as well as the two weeks in Maine and I can only say that obviously a lot of work was involved setting these up and making them run as smoothly as they did. Edna insists its a "labor of love" and I am glad she's willing to do it. Because of her efforts, casual acquaintances are becoming good friends, I am learning a few things about photography (in spite of myself) and I have gained five pounds in the process. (Some great meals were involved.) Anyone wanna go on a diet?

#### Fine Print Monochrome Workshop Thursday Dec 10

Well I'm hearing a lot of believers in cold light enlargers now after the demonstrations of printing with both a color negative and a black and white negative with diffusion, condenser, and cold light sources. As you all saw, the only way to get a sharp print is with a cold light because diffusion sources either heat up or have a fan that vibrates; with a condenser light the negative goes up and down depending on the light's heat so that it never stays in the same position of focus. The cold light also gives the most contrast of the three, rather than the condenser light which only gives little more contrast than the diffusion light source. Yes, I know that this is not supposed to happen but you saw that it does.

You all saw when we developed the negatives that most people under expose their film by at least one to two stops, and that is one reason why they do not have detail in the shadow area of their prints.

For this night's session, bring your camera and a roll of T-Max film ASA 100 and your tripod. We are going to re-shoot the fabric swatches so you have another chance to get it right. Your notes will also help since I explained how to do it before. Please bring a few sheets of your favorite paper in 8x10 size, so we can go into the darkroom and test it out. Lets see if your paper is capable of producing the blacks and whites you need for a fine print. It can be fiber base or resin coated.

There is a lot more but the Cable Release has enough to print so we will just cover it at the workshop. Those who will be attending please notify Ann Swanekamp at 937-8057 who handles all attendance. Call early as space is limited and someone else may want to come in your place. See you at Ralph and Carole Freeman's at 7:30.

Mike.
