## WELCOME TO THE SILVER SPRING CAMERA CLUB

Welcome to the Silver Spring Camera Club's 68<sup>th</sup> Season! If you're a new member, this Handbook should serve as an introduction to the many benefits of joining the Club. If you're a renewing member, this Handbook provides useful information on the competition topics for 2018/2019, and this year's calendar of speakers and judges.

SSCC truly offers something for everyone. If you are interested in the competition experience, and testing yourself in monthly competitions or just attending and learning about the process, we have some gifted photographers and great judges who offer constructive feedback in a very supportive and fun environment. Competition Night has made me a better photographer. The Club also offers a wealth of learning and fellowship opportunities, including insightful speakers, field trips, and a meeting called *A Closer Focus*, which offers members a chance to receive feedback on their photography from their fellow members in a non-judging environment, learn new skills via workshops, or hear presentations on photographic subjects. All of these meetings and field trips offer a great opportunity to get to know the other members and share your photography experiences and ask some questions. We also have a monthly board meeting, which is a great opportunity to be a voice in the direction of the club.

The Club has a deep history and many longtime members. The members are interested in furthering their knowledge of photography and having the opportunity to share the experience and socialize with others who feel the same. It is very easy to connect with the club. In addition to the weekly meetings, we have an active Facebook account. You can find information on Meetup, and we have a Google group forum. In my experience, club members are all happy to share their knowledge of and enthusiasm for photography, so reach out to them at the next meeting.

I hope that this Handbook will serve as a resource throughout the year.

## SILVER SPRING CAMERA CLUB KEY INFORMATION

The **Silver Spring Camera Club (SSCC)** comprises a diverse group of individuals passionately dedicated to the pursuit of photographic excellence. We believe the best method of understanding the art of photography is through education and the sharing of ideas. For over 60 years SSCC has maintained a high standard of integrity and quality. Our reputation as the friendliest club in the metropolitan area is the basis of our success. We welcome new members of all ages and skill levels who share our interest in photography.

### Meetings

The club meets on the first three Thursday nights of each month from September through May of each year, and conducts a board meeting (open to all members) on the fourth Thursday. Exceptions are made for key holidays, weather-related closures, and conflicts precluding our use of the meeting location. All regular meetings are held at Silver Spring United Methodist Church, 8900 Georgia Ave., Silver Spring. We meet in the Fellowship Hall. It is under the main sanctuary, so look for the directional signs and the steps down to the Hall. An annual banquet is held in mid-June.

### Speaker Meetings

Guest Speaker meetings are held on the first Thursday of each month from 7:30-9:30 p.m. A speaker, usually either a professional photographer or renowned amateur, will deliver an illustrated talk on some aspect of photography.

### Competitions

Competitions are held on the second Thursday of each month from 7:30-9:30 p.m. Depending on the number of images to be judged, competitions may end later. Independent experienced judges are arranged, and the entries are judged blindly. Images may be entered in Advanced or Novice classes, in categories of Print or Projected (digital) images. Competition themes vary from month to month.

### A Closer Focus Meetings

The third Thursday meetings, named "A Closer Focus", are interactive, and pursue photographic topics at a greater depth than the other meetings do. These meetings include "hands on" workshops in photographic techniques conducted by advanced

SSCC members. The meetings include informal "salon" type forums for members to bring and discuss their work. The meetings also include educational topics, and can include "how to" presentations, book reviews, and more. Meetings are held from 7:30 - 9:30 p.m.

### Board Meetings

The fourth Thursdays of each month are Board Meetings. The agenda is circulated before the meeting, and all members are welcome to come and contribute. As with the other meetings, we begin at 7:30 p.m.

### Field Trips

At least one field trip is held every month on a Saturday (or sometimes on a Sunday or a Monday holiday) during the club year. Most trips are to sites in and around the Washington, DC, area, although we occasionally visit locations in Baltimore, West Virginia, Pennsylvania, and Delaware. Please check the *Cable Release*, the SSCC website (<http://www.scccphotography.org/>), or sign up for Meetup announcements. You may contact the Field Trip chairperson (Phil Boyer) for more information.

### History

The Silver Spring Camera Club began in the fall of 1950 when about 50 people attended an open meeting for anyone interested in forming a Camera Club. The stated purpose of the Club was "to provide an opportunity for people with a mutual interest in photography to share their experiences and common knowledge." The charter membership was about 60. Twenty-one years later in 1971 the membership stood at 150, and new applicants were placed on a waiting list.

Over the years the Club had held its regular meetings in a camera store, various community center clubrooms, a recreation center, a high school, and several libraries. It usually had two meetings a month. Up until 1975, there were only two categories for the competitions: color slides and monochrome prints. In 1976, four print meetings included a color print competition. By 1983, every print competition included color prints for both novice and advanced classes. The slide competitions have remained basically the same, except that the number of allowed slide entries was reduced from three to two in 1982 due to the large number of entries. In 2008 the slide category was changed to digital projected. The Club recently reviewed its competition rules, and beginning in 2014-15, there are two categories for each competition: Projected (digital images) and Prints. Members can enter up to two images (monochrome or color, unless otherwise specified in the month's competition topic) in each category.

The original "workshops" consisted of short 15-minute presentations given by members at the beginning of each main meeting "to provide an exchange of information and first-hand experience on photographic techniques and materials." (The name was changed to "shortshorts" in 1970; and then to "mini-workshops.") In the mid-1960s "study groups" met monthly, first for color slides and later for monochrome prints. These were joined by the New Directions Workshop in 1981, and a few years later by the Composition and Presentation Workshop. Also in the 1980s, there was a View Camera Group, a Creative Workshop, and two one-year workshops on the Fine Print and Retouching. In the 1990s, we added a workshop on Computer Imaging. We currently conduct workshops, along with education and photo sharing, under our "A Closer Focus" meetings.

From the very beginning, SSCC was a member of the Photographic Society of America (PSA). This provided an opportunity for members to exhibit their work in the Print and Slide Circuits in the U.S. and around the world. Through the years, SSCC has arranged exhibits of members' work in a variety of locations throughout the Washington, DC area. Club members have also participated in the competitions sponsored by Greater Washington Council of Camera Clubs and the Council of Maryland Camera Clubs.

The Club's newsletter, the *Cable Release*, began publication in October 1961 as a mimeographed newsletter with hand-drawn illustrations, which was mailed to members for 4¢. Later issues contained black-and-white photographs, and two 1979 issues feature front-page color Xerox reproductions from slides. The *Cable Release* has earned several awards from the Photographic Society of America for its quality and service to members. The first mention of the use of a computer was by editor Art Drucker, who used his trusty Commodore from 1984 to 1987. Over the years, the *Cable Release* has provided club news, photo-related articles, and members' opinions on a variety of topics. The archive of past newsletters, which is in the care of our club historian, chronicles the history of a dynamic organization that, with the active input of its members, has been constantly evolving for more than half a century. In the 2016/17 program year the *Cable Release* became a web-based newsletter with links to articles and other web pages. There is an index of articles from the past several years in this edition.

#### PSA

The Photographic Society of America (PSA) is a worldwide organization for anyone interested in photography. The society includes casual shutterbugs, serious amateurs, and professional photographers.

Founded in 1934, PSA has members in over 70 countries. Individual, Club, and Council memberships offer a wide variety of services and activities: a monthly magazine; online photo galleries, image evaluation, study groups, and courses; competitions; an annual conference; recognition; and discounts on photography related products and services.

The Silver Spring Camera Club has been a member Club of the PSA since the club was founded in 1950. ## SSCC MEETING LOCATION

All major monthly meetings of the Club year are held at the Silver Spring United Methodist Church, 8900 Georgia Ave. in Silver Spring. We meet in the Fellowship Hall. It is under the main sanctuary, so look for the directional signs and the steps down to the Hall. Meetings start at 7:30 pm.

**From the I-495 Beltway**, take Exit 31 – Georgia Ave (MD-97), south toward Silver Spring. Be alert for speed cameras on both sides of Georgia Avenue between the Beltway and the church. The church is 1 mile south on the right. Turn right onto Ballard St. and then right into the parking lot.

**From Washington, D.C.**, take Georgia Ave north, through downtown Silver Spring. The church is half a mile north of the intersection between Colesville Rd. (MD-29) and Georgia Ave. Turn left onto Ballard St. and then right into the parking lot.

About a 15 minute walk from buses and Metro:

**From the Metro:** Take the Red Line to Silver Spring station. Use the north exit to leave the station. Walk north along Colesville Rd., toward the AFI Movie Theater and the tall Discovery Channel building (though they will be on the other side of Colesville Rd.). When you reach Georgia Ave, turn left and walk north along Georgia (there will be trees in the median of the road) 0.5 miles until you reach the church on the left.

**From Buses:** Most buses deposit at or near the Discovery Channel building. Make your way north along Colesville Rd. or Georgia Ave. until you reach their intersection. Then walk north on Georgia (there will be trees in the median of the road) 0.5 miles until you reach the church on the left.

## COMPETITION TOPIC DEFINITIONS

The following definitions apply to 2018-2019 competitions.

### Open

In open competitions, free rein is given to the choices the photographer makes in the creation of the submitted image. Images of any and all subjects or themes, created using any photographic or post-processing methods or techniques, are acceptable. The images are evaluated based upon the judge's general assessment of their creativity, emotional and/or intellectual impact, aesthetic beauty, uniqueness of subject, and technical skill. The judge need not assign any specific weight to any single attribute of the image.

### Nature Photography

Acceptable entries are photographs that portray various aspects of natural plant and animal life; that illustrate the natural features of land, sea, and sky; or that reveal natural phenomena. No image in this competition may show human intervention. Domestic plants (e.g., in a botanical garden) or animals (including zoo animals) may be included as long as they do not show any human intervention (e.g., collars or ear tags, gates, walls, paths, signage).

### Rural/Country Photography

The term "Rural/Country" encompasses images that show aspects of rural and country environs. The subjects may be animate or inanimate and the field of view may be anywhere along the spectrum from wide angle to close-up. What distinguishes "Rural/Country" photographs from nature or landscape photographs is the presence of some indication of human involvement in the environment.

### Red Photography

The term "Red Photography" encompasses images where the color red is primarily what draws the attention of viewers to them. While red needn't be

the color of the subject of the image, the color must contribute significantly to what makes the image special.

### Action/Motion Photography

The term "Action/Motion" encompasses images in which the depiction of movement is primarily what draws the attention of viewers to them. The movement may be large or small, fast or slow; but the constant is that the image conveys the impression that something in the camera's field of view was in motion as the photographer clicked the shutter.

### Monochrome Photography

The term "Monochrome Photography" contemplates images that use only a single color, including the full array of shades of that color. So, for example, black and white photos, with black as the single color and its multiple shades of gray, are monochrome. Other single colors and their shades are equally acceptable. Under this definition, a sepia tone photo is acceptable, but a sepia tone photo containing a red umbrella would not qualify as a monochrome. Any subject matter is acceptable. In addition, a photo is acceptable if it was originally taken as a color image, as long as the image presented for the competition has been rendered into monochrome.

## MONTHLY MEMBER WORKFLOW

The following topic list indicates the activities and meetings that generally define each month in the program year of September through May. Other irregular activities are introduced into the monthly schedule from time-to-time as well.

### Beginning of the Month

- If you are planning to enter competition, finish working on up to two photographs to submit for the Projected (digital) competition and/or mat or mount up to two photographs for the Print competition.
- Consider providing an article for the *Cable Release* newsletter (including reviews, workshops, trips, thoughts, or anything of interest!).

### First Thursday – Speaker Night

- Attend Speaker Night to gain inspiration and learn how an expert approaches photography.
- Submit Projected Competition entries by the midnight deadline.

### Second Thursday - Competition

- Arrive early to sign in and turn in matted Print Competition entries. (Use the template provided on the SSCC website.)
- Listen to comments by the judge about your photographs, and about others' photographs, to learn how to critically see and develop work from the various judge's perspectives.

### Third Thursday – A Closer Focus

- Based on the topic, whether it be a workshop, an education topic, or an interactive forum, come with equipment or materials for specified projects as indicated in the prior *A Closer Focus* meeting, the *Cable Release*, and the Meetup announcement. You may also wish to bring a book, software, video, or other media reviews, or anything else for discussion.
- If you like, bring a few of your prints to evaluate with fellow members, and be prepared to offer your own feedback, critique, and questions to others.

### Fourth Thursday – Board Meeting

- Optionally attend and participate (non-voting) with Board members in discussions and decisions involving the Club's future!

### Field Trip(s)

- Be sure that you know the meeting time and place, which is announced in the *Cable Release*, at Thursday night meetings, and on Meetup announcements.
- Check out the venue on its website, or via a "Google" image search, to see what shooting opportunities might present themselves.
- Seek out other members who shoot similar equipment to ask questions and get tips on lenses, flash, tripod, filters, etc.

### End of the Month

- Submit your article for the *Cable Release* to the *Cable Release* Editor by the 24th.

David Blass – *Pensive Gorilla*

## FIELD TRIPS

Each month, the Club organizes at least one field trip for members to shoot together. This is a great opportunity to learn from other members and shake yourself out of a photographic rut. This is a no-pressure opportunity to experiment with your photography and enjoy the company of fellow club members. When possible, field trips end with a group lunch, so make sure to find out where the group is headed through the *Cable Release* or Meetup, or the trip leader.

*Great Egret – by David Terao*

Last year's field trips were the Maryland Renaissance Festival, Huntley Meadows Park, the Rockville Antique and Classic Car Show, Forest Glen National Seminary, the Washington D.C. mall at night, the Mormon Temple Festival of Lights, Eastern Market, National Shrine & Franciscan Monastery, Fells Point in Baltimore, Ellicott City, and the Maryland Sheep and Wool Festival.

The planned 2018-2019 field trips include the Maryland Renaissance Festival and Antietam Battlefield in September. Other trips in the planning stages include Brookside Gardens, Rockville Antique and Classic Car Show, College Park Aviation Museum, Montpelier Mansion Historic Site, Guinness Brewery in Baltimore County, Union Station in D.C., Ann Marie

Sculpture Garden in Solomon's Island, the Emmitsburg, PA Antique Mall, Haines Shoe House/Weightlifting Hall of Fame/Perrydell Farm, and the Soleado Lavendar Farm. Other ideas are in the mix as well. Stay tuned! (the *Cable Release*, email blasts, and Meetup).

Phil Boyer is the Field Trip Coordinator, but other club members can organize and lead the trips as well. We are always looking for volunteers to lead trips, and ideas for fun places to photograph.

## Carpool

People wishing to carpool meet (unless otherwise specified) at the northeast corner of the parking lot of Hillandale Shopping Center, Silver Spring:

From New Hampshire Blvd (650), take **Powder Mill Rd. to the first entrance on the right and into the lot**, then an immediate left and park at the top of the lot, (catty-corner from Unique Thrift Store and opposite from Domino's):

[1731 Powder Mill Road, Silver Spring, MD 20903.](#)

See arrow on map below.

## CABLE RELEASE

SSCC publishes a monthly newsletter, the *Cable Release*, from September to May each year. This publication keeps members informed about all planned activities, speakers, judges, field trips, articles, and more. Each *Cable Release* issue also features winners from the previous month's photo competition.

The Photographic Society of America awarded the *Cable Release* second place (tie) for large club newsletters in 2013-2014 and even the newsletter-of-the-year in previous rounds of competition.

Two years ago the *Cable Release* became a web-based newsletter. We maintain an archive of the prior newsletters as published in either the web-based or the original PDF formats. The newer format has significant advantages from the previous hardcopy-emulating format when read with a computer, tablet, or smartphone. These include more efficient navigating through topics and more selectivity in reading just one article at a time. We also provide links to other articles within the SSCC site, and throughout the internet at large, for further exploration of topics of interest.

The *Cable Release* is organized as a high-level web page. It has a cover photo like it did before, followed by a Table of Contents (TOC) with the main sections of the newsletter. You can click on any section in the TOC and be transported to that

section. You can return to the top from any point in the newsletter with a click on "Return to Top" on the bottom-right of your screen.

Key events are listed immediately after the TOC, and provide the dates, meetings, and field trips at a glance. The main sections are:

- **"Meetings and Field Trips"**: with individual descriptions of each meeting, competition, and field trip for the month.
- **"Club News"**: where membership news is shared, board meeting notes, photos from the last months field trips, upcoming socials, and other club-related items.
- **"Features"**: contains topics of interest that we wish to highlight. These can include particular workshops or events, articles about SSCC member accomplishments, or anything that doesn't easily fit in "Club News" or "Member Articles".
- **"Member Articles"**: includes what it sounds like – these are articles by the members on anything they wish to share.
- **"Competition Winners"**: includes the results and photographs from all our recent competitions, including the members' comments about their photographs.
- **"Classes, Calls for Entry, and Exhibits"**: the last main section, and includes upcoming classes and workshops, calls to enter various photography competitions, and exhibits and events in the greater Washington Metro Area.

The *Cable Release* contains mostly new material, containing items befitting a "newsletter." You will generally see introductory paragraphs on the primary page linked to full articles on their own pages. You can more quickly navigate to topics of interest without paging and re-paging through a serial magazine format.

One big advantage of the web-based design is that we have removed the size constraint for articles (for the most part). While we still want to keep each article concise and readable in a few minutes, we can now include galleries of pictures for an article rather than just a few selected photographs.

The newsletter can only be as good as the articles and information submitted by the Club members. Please consider offering reviews of your own

photographic equipment or software. This could be a new acquisition or an old favorite that might still be available on eBay or other used equipment venues. People are also looking for photo tips and techniques, so please send me any that you might have. The web-based *Cable Release* is an

opportunity to share your thoughts in a flexible format with illustrative examples.

David Terao – *Burning Match*

If you've attended photo workshops, seminars, or classes that others could also be interested in, please send a review. It doesn't have to be a full-length article. It can be a paragraph – please include a web address or equivalent for the organization involved so that the members know where to pursue it further. Try to focus more on the positive experiences that you'd recommend to others.

All members have an opportunity to submit content for *Cable Release* publication. If you want to submit something, and aren't sure about any aspect of it, just ask! Here are some general notes:

- Please proofread your submission.

- Don't worry too much about formatting, as it will have to be reformatted for the web pages anyhow. If you would like to do something more elaborate, we can probably figure out how to do just about anything.
- If you want to include photographs and have them appear in a defined order and place, use identifying labels in the text to indicate their location. We can also include a larger group of photos as a gallery. Also, please provide short captions for photos if you want captions.
- Any photograph that you provide that is bigger than 1000 x 1000 pixels will be resized to fit on the web page. Your photos can be sized to fill the width of the screen, they can be centered with no text-wrapping, or they can be placed to the left or right sides with text wrapping. We have lots of flexibility.

If you are interested in getting involved in creating and producing the *Cable Release* each month, we can carve out as little or as much as you'd like with all the training and help that you want.

Any questions about the *Cable Release*, and SSCC member submissions for the *Cable Release*, are welcomed by the editor at [cablereleaseeditor@ssccphotography.org](mailto:cablereleaseeditor@ssccphotography.org).

## SILVER SPRING CAMERA CLUB AND SOCIAL MEDIA

Connecting with the Club and its members is easier than ever before. We have an active Facebook account, you can find us on Meetup, and we have a Google group forum. Of course, the best way to connect is to attend one of our meetings! But, between our weekly gatherings here are all the different ways to connect to SSCC online when you're not at a meeting.

### JOINING THE SSCC LISTSERV

If you want to hear the latest photo news and reach out to fellow SSCC members for answers, sign up for the SSCC listserv. The SSCC listserv uses Google Groups, a very simple, well-known, intuitive system. To sign up, email Mark Paster at [web@ssccphotography.org](mailto:web@ssccphotography.org). All we need is your name and email address. You will then get an invite by email.

There are two ways to access listserv messages. One is by email. You have the option of receiving each post by email, or getting a single, digest email approximately once a day with all of the posts in it. You can respond to all posts by replying to the email.

The other method is by going to the Club's Google group website, which is [groups.google.com/group/sscameracub](https://groups.google.com/group/sscameracub)

From there, you can read discussion threads, respond to a thread, and/or start a new thread. You can also adjust your settings so that you only receive a daily digest of posts instead of getting each one separately by email. See the "Edit my membership" link on the right.

If you've never been a member of a listserv, this may sound a bit complicated, but it's actually fairly simple. If you have questions, please see Mark Paster at a meeting, or just email to [web@ssccphotography.org](mailto:web@ssccphotography.org). See you online!

### SILVER SPRING CAMERA CLUB IS ON MEETUP

Silver Spring Camera Club is on the Meetup social media platform! Meetup is an online social media tool that fosters genuine connections with Meetup

members while enhancing the visibility of SSCC in the community. We joined Meetup to help advertise the many exciting activities we offer and encourage more members to join the club and participate. More sharing of knowledge and experiences will help everyone grow as photographers and make membership in the Silver Spring Camera Club more worthwhile than ever before.

Meetup is not just a social media platform similar to Facebook or Twitter. Meetup really fosters face to face meetings rather than exclusively online "friends" and "followers".

Meetup exists in 180 countries, has almost 22.5 million members among 209,000 Meetup groups, with about 4,000 of those groups about photography.

Current members of the Club are encouraged to join the Meetup group.

**SILVER SPRING CAMERA CLUB  
OFFICIAL COMPETITION RULES  
AND AWARDS  
(Revised August 2015)**

**I. GENERAL**

1. A competition is defined as a judging of photographs of a particular category made by entrants competing at a particular level at the regularly scheduled SSCC meeting for this purpose.
2. Entrants must be members in good standing of SSCC, meaning that, in accordance with the bylaws, annual dues must be paid before participating in any competition.
3. The Competition Chairman (or person acting in his / her stead) is responsible for the administration of these rules and may disqualify and remove any entry not conforming to these rules.
4. It is also the duty of the Competition Chairman to:
  - a. instruct the judge(s) in the definitions of subjects and/or techniques; and to
  - b. instruct the judge(s) to reject any entry not conforming to an announced subject and/or techniques.
5. Entries for competition must be initially created with light sensitive devices such as film or digital camera, as well as scanned film, enlarger, copier, or flatbed scanner, etc. Images that were not created with a light sensitive device are not photographs and are not permitted. To encourage creativity and exploration of new technologies, there is no restriction on the amount or type of computer or darkroom manipulation performed by the entrant on an image.
6. SSCC assumes no liability for any misuse of copyright and is not responsible for any loss of or damage to any images submitted. By virtue of submitting an entry, the entrant certifies the work as not infringing on anyone else's copyright. With the permission of the photographer, SSCC

may reproduce, in printed or electronic form, all or part of the entered material free of charge for publication and/or display in media related to the promotion of the club and to effectively operate and promote its competitions.

Larry Gold – *Window and Steeple*

**II. CATEGORIES**

1. There are two categories of competition: (1) Prints and (2) Projected Images. Each includes monochrome and color images.
2. Entries in all categories must have been created by the entrant.

**III. LEVELS**

1. Each category of competition (Prints and Projected Images) has two levels: Novice and Advanced.
2. A member's level standing in one category has no bearing on that member's standing in any other category.
3. A member may begin competing at either level of any category and may voluntarily move to the

next higher level at any time. However, a member who has entered images at a higher level may not thereafter enter at a lower level. It is the member's responsibility to insure that his/her entries are properly recorded and entered into the correct competition level.

4. Whenever there are insufficient entries to hold a Novice competition, a Novice member may choose to enter images in the Advanced level competition for that competition without affecting his/her status at the Novice level. Any points awarded to the Novice member in that higher level competition will be tallied as Novice level points.
5. Point scores are recorded and tallied by the Competition Chairman and SSCC Historian. A Novice entrant who has accumulated 36 points in a given category over any period in SSCC monthly competitions must immediately move to the Advanced level.
6. After receiving the SSCC Master of Photography Award, a member must thereafter compete in the Advanced level in all categories. The move to the Advanced level becomes effective in the club year following the year in which the 300 points total is achieved.

My Phuong Nguyen – *Family of Snow Monkey*

#### IV PREPARATION OF COMPETITION ENTRIES

1. For prints (at Novice and Advanced levels), printing must be done by, or under the direction of, the entrant. For film, initial processing of negatives or alternative media may be done by the entrant or a commercial imaging service. All

subsequent custom techniques, including image retouching or manipulation, must be done by the entrant.

2. For projected images, any image editing or manipulation of digital images must be done by the entrant. Images captured on film may be processed and scanned by a commercial lab. Any further steps in the production of an entry must be done under the direction of the entrant.
3. Print entries must be securely attached to either a board or a clean mat, preferably both, so that prints do not come loose. The purpose of this requirement is to effectively present the print, to provide rigidity when on display during the competition, and not to harm the prints above or below it in a stack. Prints must be of a size acceptable for the club's print viewing box (approx. 24" high); total print area may not exceed 16" x 20". A sequence of related prints, mounted on one board, will be considered as a single entry. For both levels, the combined picture area of this sequence may not exceed 16" x 20". Framing is prohibited. There are to be no hooks, substances, or protruding objects on the mount board that might scratch, mar, or otherwise damage other entries.
4. On the back of the print, the following information must be legibly included: The entrant's name and level, the title of the image, the date of the competition in which the image is being entered, and an arrow indicating the top of the print. SSCC will provide a label template so that all members can supply the required information on the back of prints in a consistent way.
5. Digital images must conform to the technical specifications provided by the Competition Chairman and published in the *Cable Release* as well as in the Member Handbook and on the [SSCC web site](#).

#### V MONTHLY COMPETITIONS

1. Competition schedule: Projected Image (both color and monochrome) and Print (both color and monochrome) competitions are to be held each month during a regular club meeting, September through May, as decided by the Board of Directors, except that one month may be designated for other purposes.

2. Number of entries that may be submitted: The maximum number of entries a member may submit in each category is two.
3. Minimum number of entries to hold a competition: To conduct a Novice competition, there must be at least four entries by at least three entrants. To conduct an Advanced competition, there must be a minimum of nine entries.
4. Log-in procedure for prints at competition meetings: Prior to the competition, each entrant must ensure that his/her name and the title of each of their print entries are recorded in the appropriate competition registers as maintained by the Competition Chairman. Proper submission of digital images generates automatic registration. An Advanced level image entered into a lower level will be disqualified.
5. Log-in time for prints at competition meeting: All prints must be logged in no later than five minutes before the starting time of the meeting. If a member is unavoidably delayed, his prints may be included in the competition at the discretion of the Competition Chairman.
6. Number of times one image may be entered in competitions: One image may be entered in competitions no more than three times total, across all categories, across all years of membership.
7. Re-entering a winning image in another category: No entry that has won an award in an SSCC monthly competition may be re-entered in another category.

Wendy Kates - *Eaves and Windows*

8. What constitutes a repeat image: Repeat images are identical or nearly identical images. (For example, with the photographer standing in one place, pictures of the same subject may be nearly identical though they will have different file or frame numbers. A previously submitted image can be transformed by cropping, rotating, etc. as to make it a different image.)
9. Identifying repeat images: Each photographer is required to check his / her entries for repeat images, whether identical or nearly identical. However, it is up to the Competition Chairman, in conjunction with the SSCC Historian, to identify images submitted more than three times.
10. Consequences of submitting repeat images: On the first occurrence of a member submitting an entry more than three times, the entrant is given a warning. Any subsequent submission of the image results in the loss of all points earned by that image.
11. Awards: Ribbons are presented in each competition based on the total number of entries in each level. Awards are valued as:
  - 1st Place - 6 points
  - 2nd Place - 4 points

3rd Place - 2 points

HM (Honorable Mention)- 1 point

12 Number of awards given per number of entries:

4-5 entries: only 1st place

6-8 entries: 1st & 2nd place

9-11 entries: 1st, 2nd, & 3rd place

12 -14 entries: 1 HM

15 – 24 entries: 2HM

25 – 34 entries: 3 HM

35 – 44 entries: 4 HM

45 – 54 entries: 5 HM

The number of HMs awarded in each category is based on 10% of the total entries in each category rounded up from odd multiples of five. No HMs are awarded in competitions with fewer than 12 entries, no 3rd place with fewer than 9 entries, and no 2nd place with fewer than 6 entries.

12. Competition topics: The Board of Directors may assign not more than four of the monthly competitions to a defined subject and/or technique. (The October competition is always on the topic of Nature.) All other competitions are to be open to all subject areas (open topic). Assigned topic competitions for the following club year are scheduled at a Board Meeting in April and announced in the May *Cable Release*.
13. Annual Nature competition: The topic for all October competitions (i.e., Projected Images and Prints) must always be Nature for all levels and in all categories and held on the same meeting night. The Joyce Bayley Award is presented to the “Best of Show” as determined by the Judge. Entries must conform to the SSCC definition of the Nature topic.
14. Rescheduling competitions: If a competition is not held, for any reason, it may be rescheduled at the discretion of the President.

Pete Morton – *Wet Clowns*

## VI BODY OF WORK COMPETITION

1. The Board of Directors may assign not more than one projection and one print competition each year as a Body of Work competition. For these competitions, there are no level distinctions. Sets of images (intended to tell a story, make a statement, or support a theme) are presented to the Judge as a group. Individual images that have won in prior monthly or interclub competitions are eligible for inclusion as part of a set, but no image that has been entered in a prior Body of Work competition is eligible. Entry of an image into this competition as part of a set has no bearing on its eligibility for entry into monthly or interclub competitions. Makers must assign titles to each set entered, not to each individual image.
2. To conduct a Body of Work competition, there must be at least four entries by at least three entrants. No HMs are awarded in competitions with fewer than 12 entries, no 3rd place with fewer than nine entries, and no 2nd place with fewer than six entries.
3. Print Competition: Each member may enter up to two sets consisting of 3 to 5 images in the Print Body of Work competition. Images must be individually mounted. However, multiple images mounted on one board are allowed and are considered a single image.
4. Projected Image Competition: Each member may enter up to two sets, each consisting of 3

or 4 images in the Projected Image Body of Work competition.

David Terao – *Searching*

#### VII YEAR-END COMPETITIONS

1. Each member may enter a maximum of five images per category in the Year-End competition.
2. Year-end competitions have the same rules as monthly competitions with respect to categories and levels.
3. All entries in Year-End competitions must have been entered in a monthly competition or as an SSCC entry in an inter-club competition during the preceding nine months.
4. No points are awarded.
5. A member who has entered in both the Novice and Advanced level of a category during the

*Member Handbook*

preceding year may elect to enter either the Novice or the Advanced level (but not both) for the Year-End competition. If the member enters the Advanced level, he or she may submit any entry previously entered regardless of level. However, if he or she enters the Novice level, he or she may submit only entries previously entered in the Novice level.

6. Recognition, but not ribbons or points, is determined on the following basis: 1st, 2nd, 3rd, and a variable number of HM's equal to 10% of the total entries in that competition, rounded up from odd multiples of five.
7. The Len Tuchin Award is presented to the creator of the image that, in the opinion of the Judge of the Year-End competition, is considered to be the "Best of Show."

Sheryl Adams – *Joey Rocks*

#### VIII PHOTOGRAPHERS OF THE YEAR AWARDS

1. For each level within each competition category, a Photographer of the Year award is presented at the year-end banquet.
2. The awards are determined on the basis of all points earned during the club year just ended. A

Photographer of the Year award may not be presented in a level/category if no member has earned at least a total of 15 points in that level/category.

3. Point totals are calculated as follows:

a. Novice Level:

All points earned in SSCC monthly competitions in that club year, plus all points earned as an SSCC entrant in Board-approved inter-club competitions in equivalent categories, any level.

b. Advanced Level

All points earned in SSCC for the Advanced level in that club year plus all points earned as an SSCC entrant in Board-approved inter-club competitions in equivalent categories, any level.

c. If a member moves from the novice level to advanced during a club year

All points earned at the Advanced level and one half of all points earned in the novice level of the same category in that club year, plus all points earned in Board-approved inter-club competitions in equivalent categories, any level. Such a member may be considered only for an advanced photographer of the year award.

4. In the event of a tie for a Photographer of the Year, the winners are determined as follows:

First tie-breaker : the most 1st place awards

Second tie-breaker: the most 2nd place awards

Third tie-breaker: the most 3rd place awards

Fourth tie breaker: the most honorable mention awards

If a tie remains, there are co-winners.

5. Inter-Club awards earn points toward an SSCC Photographer of the Year award as follows:

1st place – 7 points

2nd place – 5 points

3rd place – 3 points HM –

2 points

6. In any competition where the HM awards exceed 10% of the total competition entries, an HM only earns one point. Entries accepted for club representation in competitions in which SSCC conducts preliminary qualification judging receive one acceptance point each. Acceptance points are separate from, and in addition to, any points that may be earned in the interclub competition.

IX PHOTOGRAPHIC EXCELLENCE AWARDS ON BASIS OF POINTS EARNED

1. SSCC Star Merit Award: For each 50 points scored in monthly club and interclub competitions, total accumulation in all levels and categories over any period of time while a member in good standing of SSCC, a member is awarded a Star Merit Award. Stars are awarded up to a maximum of five (for a 250 point accumulation).
2. SSCC Master of Photography Award: Upon accumulating 300 total points in the SSCC Star Award System, an SSCC member is awarded an SSCC Master of Photography plaque.
3. SSCC Grand Master of Photography Award: Upon accumulating 600 total points in the SSCC Star Award System, a member is awarded the SSCC Grand Master of Photography plaque.
4. SSCC Hall of Fame Award: Upon accumulating 1200 total points in the SSCC Star Award System, a member is awarded the SSCC Hall of Fame plaque.
5. The Competition Chairman and/or the Historian must maintain records necessary for the administration of Photographic Excellence awards.

Sue Green – *Trance Dance*

#### X SERVICE AWARD

A Service Award may be awarded to the SSCC member who the Executive Council determines has made outstanding contributions to further the interests of the Club and its membership. The Executive Council makes this determination by secret ballot no earlier than May 1st of the award year. The member must receive a majority of the votes cast; if no majority is reached, there may be up to two additional ballots in an effort to achieve one. If no majority is reached after the third ballot, there is be no award for that year.

## WHY COMPETE? A VISUAL MEDITATION

Dave Mullen

Every Sunday the Washington Post Magazine has a visual puzzle in which the reader is invited to examine two photographs and find the 12 differences between the two. Much like reading our children "Where's Waldo?" books, this exercise in visual acuity can be fun, or frustrating. I now invite you to find the differences between the two photographs in this article:

Study them hard, and see if you can find the differences. Having a tough time?

Well, the two judges who looked at this photograph had no trouble distinguishing between them... the photograph on the left was tossed during the first round of competition, while the photograph on the right won a First Place ribbon. The difference? The person looking at the photograph!

All this is by way of encouraging every SSCC photographer to enter competitions and not to get discouraged. This is far from my only image to be battered by one judge, only to be admired by another. Your own reaction to photographs in the *Cable Release* newsletters will tell you all you need to know... "I like that one, I don't think much of this one."

Our friends and relatives always *love* our work. The value for me in competition is not in the winning of ribbons but in the feedback from judges.

Yes, we may need a thick skin some months, but listen to the judge and consider her or his comments.

These are not pronouncements from the gods on high, but are the reaction of a fresh set of eyes upon our work. The comments by a judge may cause us to tweak or completely reinterpret our photograph, or we may decide that we don't think much of what the judge had to say but like the photograph just the way it is. In either case, our eyes will have become a bit more discriminating and thoughtful in both the shooting and processing of our work.

I always leave Competition Nights having thought more carefully about my work, whether or not I have a ribbon to show for my efforts.

Isn't that one of the reasons we joined SSCC?

## A COMMON SENSE GUIDE TO PHOTO COMPETITION

*PSA Journal*, May, 1991 by Marty Feins

Why do we enter photographs in competitions? Are we looking for awards, recognition and the excitement of being a winner? If you answered yes to any of the above questions, you are missing the whole purpose as to why your club sets up competitions and judging.

The purpose of a competition is primarily to see if your photography is improving, to learn how the judge thinks you can improve your particular photograph and to observe and learn from the comments he or she gives fellow photographers in the competition. Remember, a competition is primarily a learning experience.

Laurel Sharf – *Bored Icelandic Sisters*

Good photography is not too hard to achieve, great photography, however, takes a lot more effort. If you want to be a great photographer, you must ask yourself, "Am I willing to really work at it and learn how to take better pictures?" If your answer is "yes" then there is no better time to start learning how to take a better picture than right now. You should understand something very important, when you submit a photograph to a judging: you are saying to the judge essentially, "this is my best; I can do no better." Is this a truism, though? It is not if you honestly believe it can be improved. Yes, it is nice to

win awards and to gain recognition for your work, but is it not nicer to improve?

When your print is critiqued, try to remake, crop, tint or redo your photograph in the style suggested by the judge. After you have accomplished this compare both photographs and see if you have had a learning experience. If you have, then competition is for you. It is not even necessary to wait for a judging competition. Aren't there already members in your own club whom you respect for their knowledge and ability? Take advantage of their wisdom. You would be surprised how quickly they would offer you help and guidance and gladly share their skills.

Here are some things to look for in your photographic entries. First of all, show **Impact**. Grab the viewer's attention, stop her, make her go "ahh", and make every effort to avoid distracting elements which are in front, to the side, or behind the main subject.

Next, use **Creativity**. Make the viewer think and make him wonder how you achieved your photographic image. Remember, photography is a recognized art, be an artist and **Use Artistic Ability**. Show good use of balance, composition, color, cropping, and logical use of space. Use the full scale of the film to achieve the proper contrast. If you send your prints to a commercial lab, use a good one; one which will crop and give your print the color effect you want. Make the lab technician redo your print until it is done the way you would like it if you were printing it. Poor print quality from a lab is no excuse to a judge. It will cost you points.

Know your picture's **Center of Interest**. Find an eye-catching point, then lead the viewer's eye throughout the picture, hold her attention and exclude any lines that might lead the viewer's eye out of the photograph.

**Lighting**, whether natural or manmade, should look realistic. Avoid the snapshot camera flash look. Make light work for you. Use reflectors. Even a handheld newspaper can fill in shadow details.

Know and make good use of **State of the Art Techniques**. Tools like the montage, sandwich, dyes or pencil or whatever other skills you have mastered can greatly improve your picture. However, use

these techniques discreetly. Use them only if they help the photograph, not just to show you know how to do them. Also make the viewer wonder how you achieved your photo image.

Your choice of **Subject Matter** should be appealing, arouse emotion and set a mood. Your subject should be shown to its greatest advantage, with nothing to disconcert the feeling you want. Your picture should also **Make a Statement**. It should tell poorly in presentation of your work will cost you points. A great photograph presented carelessly will cost you. Remember photography is a recognized art - be an artist.

When photographing for assignment competitions study the competition's idea thoroughly. In photographing **People Portraits** if the subject is a portrait (a person), they should be either pleasant to look at (photogenic) or unusually interesting (character study). If the subject is of an active sport, the subject must be doing his or her sport activity. When photographing **Animals**, use nice looking healthy animals, (creatures, bugs, etc.), but have them doing more than just looking at the camera. As for capturing **Abstracts** on film, use strong designs, patterns, textures, have a definite point of interest and keep the viewer's eyes into the photograph.

All of the above, however, should just be considered suggestions. Use *your* imagination, look and listen,

a story, give a message or make the viewer think "propaganda".

Last, but not least: **Presentation**. Use proper mounting, clean cut masks, and the proper type of mounting board. Use step-off mounting on prints, judicious use of spotting and print correction, clean boards and so on. Use good judgment and be proud of what you do by your efforts. Everything you do

but most of all work at it and make your next entry a "10."

## **“NOVICE” & “ADVANCED”: TWO DIFFERENT MEANINGS**

Participants in SSCC competitions enter at either the novice or advanced level. However, each of these level designations carries two unrelated meanings.

“Novice” means a person who is relatively new to photography or who may be relatively inexperienced with certain kinds of photography equipment. But within SSCC, “novice” also means a member who has only earned up to 36 points cumulatively in the monthly members’ competitions. Such a person may already have considerable experience in photography, but perhaps he or she doesn’t enter competitions often enough to earn points at a faster rate.

New and even existing members whose experience and ability would make them feel comfortable competing at the advanced level are encouraged to do so. Just speak to the competition chairman to have your name placed on the advanced roster.

Remember, though, once you move up and compete at the advanced level, you can’t go back to novice!

The “advanced” designation likewise has two meanings. It can represent a member who has earned 37 or more points in either the projected or prints competitions. But it can also be a member, regardless of points, who might be a retired pro or who has long experience as a serious amateur.

New members, joining SSCC for the first time, may want to talk to the competition chairman to determine the right level for them to enter competitions.

The bottom line here is that both levels have a range of proficiencies. The ribbons and points shouldn’t be the central focus of competitions. What really matters is the enjoyment of doing photography, of learning and improving, and of sharing these experiences in a community of like-minded folks.

## FREQUENTLY ASKED QUESTIONS ABOUT THE RULES

Members are invited to email any questions about the rules to the *Cable Release* editor ([cablereleaseeditor@ssccphotography.org](mailto:cablereleaseeditor@ssccphotography.org)), who will forward them to the “Rules Guy.” Questions and answers appear in the newsletter for the edification of all members. Here are the questions that were asked last year.

**Dear Rules Guy,**

I took this lovely snapshot at the zoo. I showed it to one of my fellow club members and I told him I’d like it to be more dramatic and in black and white. He opened it in Photoshop and came up with the second version, of which I approve. *Can I enter this photo in an SSCC competition?*

New Member

**Dear New Member,**

Please have your friend contact Michael Koren about volunteering to teach Photoshop techniques at a future “Education Night.” I’m sure many club members would be interested in learning how the changes were made. However, the new version **cannot** be entered in an SSCC competition.

*“Silver Spring Camera Club Competition Rules and Awards (August 2014)”* clearly state, “any image editing or manipulation of digital images must be done by the entrant.” That includes images shot on film and later scanned.

Rules Guy

=====

Sue Green – *Happy Hair*

**Dear Rules Guy,**

I’m a new member of the club and really enjoy the speakers and competitions. *I can’t resist commenting aloud (sometimes, to no one in particular) in reaction to funny, unusual or particularly outstanding images.* To me, that seems like a normal/natural reaction. Longtime members, even club officers, comment sometimes. What can we do to stop whoever the “old grouch” is who frequently tries to “shhh” everyone? He/she even does that after the judge asks a question. Why can’t we simply enjoy the photography without being hassled to keep quiet?

Rowdy

**Dear Rowdy,**

That is an understandable question from someone unfamiliar with the etiquette of photo contests. Even the most conscientious judges are human and, therefore, vulnerable to outside influences, no matter how subtle. The club’s goal is to eliminate as many “outside” stimuli, both physical (sight and sound) and psychological, as possible. That’s why we aren’t allowed to even answer a judge’s questions.

That even means that a competitor should refrain from discussing his/her entries with the judge until judging of ALL categories is completed. Experienced photographers (i.e. judges) can often see subtle similarities/traits in other photographers’ work; sometimes in very different images. That subtle, subconscious influence might tilt the “level playing field.”

Sometimes, even “old grouches” have valid intentions!

The Rules Guy

Nick Williams – Ark of the Arena

**Dear Rules Guy,**

All this talk about *how many times a print has been entered* into competition, whether it has won, how many *points* I've earned, etc. is bewildering. My memory isn't what it used to be. I simply can't remember all that stuff.

Where are my glasses?

**Dear Glasses,**

Nobody's memory is what it used to be, especially the Rules Guy's! That's why record keeping is important. Your records don't need to be elaborate; a simple list in a notebook, a Word document, a

spreadsheet, whatever . . . anything that works for you.

If you need a summary of your previous entries, contact Norm Bernache, the club Historian. He maintains a database of all competition entries. He will provide your data as a report or, if you prefer, in a spreadsheet format.

I should also point out that experienced photographers need not wait until 36 points have been earned in a category before moving up to Advanced. In fact, they are encouraged to voluntarily move to Advanced, in the spirit of fair competition.

Rules Guy

=====

**Dear Rules Guy's Buddy,**

I keep hearing about the “rules,” but I've never seen them. Who has them and how can I see them for myself? Doubting Thomas

**Dear Tom,**

You can, and should, see the rules for yourself. If every member took twenty minutes to familiarize themselves with the competition rules then there would be far less frustration on Competition Night. The rules are available to all members, and to the general public, on the club website under “[Key Documents](#).”

So, what's in these rules that I should know?

You should know, or at least be familiar with, everything in the rules. For example, one question that often comes up is who can manipulate and print an image. The rules are pretty clear about this...

*Section I. General... Item 5...* To encourage creativity and exploration of new technologies, there is no restriction on the amount or type of computer or darkroom manipulation performed by the entrant on an image.

*And in Section II. Categories, Items 1 and 2... For prints (at Novice and Advanced levels), printing must be done by, or under the direction of, the entrant. For film, initial processing of negatives or alternative media may be done by the entrant or a commercial imaging service. All subsequent custom techniques, including image retouching or manipulation, must be done by the entrant.*

For projected images, any image editing or manipulation of digital images must be done by the entrant. Images captured on film may be processed and scanned by a commercial lab. *Any further steps in the production of an entry must be done under the direction of the entrant.*

Pretty clear, isn't it? The entrant must have done all the work on the photograph prior to it being printed. You can't have someone else "touch it up" when they print it, as that clearly violates the rules,

which state that all manipulation and retouching must be done by the entrant.

Rules Guy

## DIGITAL PROJECTION SUBMISSIONS

The requirements for submitting images for digital projection are:

### Submission Deadline

- Midnight 1-week before competition (SSCC's Speaker meeting night)
  - Send submissions to [competition@ssccphotography.org](mailto:competition@ssccphotography.org)
  - Images (per member per competition): maximum of 2
- File Format: JPEG
- File Size: 1000 KB (max)
- File Name: **Level ~Maker's Name~Image Title.jpg**
  - Example: Advanced~Tom Jones~Washington Landscape.jpg
  - The tilde "~" character separates the 3 sub-fields of the file name
  - **Level** – "Novice" or "Advanced" (capitalization not required)
  - **Maker's Name** – spaces allowed
  - Please use the same name throughout the year to aid record keeping.
  - **Image Title** – spaces allowed

DO NOT embed commas (,) or tilde (~) in any of the File Name sub-fields.

The "**File Name**" requirements are very important for running the competition. Please be careful when entering this information. Nonconforming filenames make it very difficult to track your entry. Use a tilde (~), NOT a dash (-) to separate the subfields (**Level~Maker's Name~Image Title**) of the filename. The Competition Chair will not make changes to the filenames after submission, so please check them carefully before submitting.

The computer and software will automatically rescale your image for projection, but if you want to exert full control over how the image is displayed, you should consider resizing and sharpening the image (maximum of **1920 pixels wide** and **1440 pixels high**) yourself. Please see the *Member Handbook* (<http://www.ssccphotography.org/wp-content/uploads/2014/08/SSCC-MemberHandbook2014.pdf>) for tutorials on how to resize images in Lightroom or Photoshop.

The maximum file size of **1000KB** is to limit the demands on computer memory and speed the presentation.

The computer we use for competition night will automatically add black bars at the side of the photo based on the photo's aspect ratio. If for artistic reasons you wish your image to be presented at a size smaller than screen's full height or width, then you must size your image and position it within a **1920 pixels wide x 1440 pixels high black** background image (canvas size in Photoshop).

### PRINT IMAGE ENTRY GUIDELINES

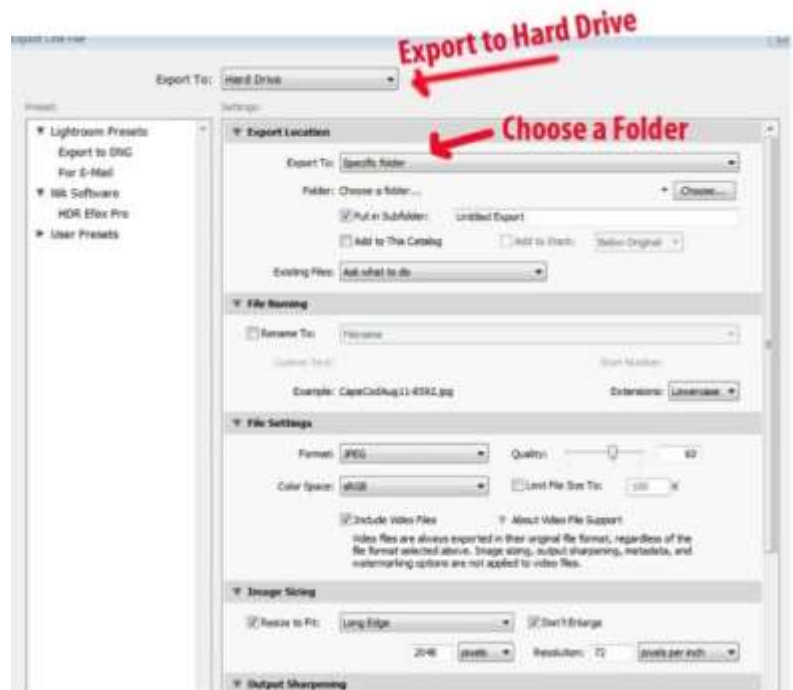

More info on the back of prints is required. In addition to the old requirement (name, title, and an arrow indicating the top of the print), you must also include your level and the date of the competition. ## USING LIGHTROOM TO EXPORT IMAGES FOR DIGITAL COMPETITION - Dave Mullen

In the “Library” module of Lightroom, choose a photo and click on the “Export” button in the lower left section of the screen.

In the Export Dialogue Box, choose “Export to Hard Drive” and choose the folder into which you wish to export your photograph.

You may have to Browse around a bit to find the folder into which you wish to export, or you may create a new folder.

Lots to do here! You've picked the folder, and maybe created a subfolder.

You've renamed for competition as per the specs for Digital Competition.  
(Level~Name~Title)

You've fixed the format (JPG), the color space (sRGB), and the file size (1000 KB).

And you've sized the photograph according to the specs (1920 pixels maximum width if landscape orientation, 1440 pixels maximum height if portrait orientation). While we often work at and print at 300 pixels per inch, 90 pixels per inch is all that our current projector shows, so having a higher resolution just increases JPG compression and wastes space.

Then the final touches... sharpening, metadata, etc.

Click on Export. Find the file in the folder into which you exported, attach it to an email with the subject line as per the specs, and send it to [competition@ssccphotography.org](mailto:competition@ssccphotography.org).

## SIZING IMAGES FOR DIGITAL COMPETITION IN PHOTOSHOP Jim Rogers

This Photoshop procedure will create properly sized copies in JPG format, with the correct color profile, to meet SSCC's digital competition specifications. **Copies** will be created for **all** images processed, thus the original image format (PSD, TIF, or JPG) does not matter.

After you've finished all modifications/manipulations in Photoshop, proceed as follows:

A. **Place** ALL competition files to be resized in a separate folder – file type (psd, jpg, tiff) doesn't matter.

B. Click **"File"** in Photoshop menu (upper left) and

Select **"Scripts"** and then

**"Image Processor."** C. In the **Image Processor** drop-down menu, under the four sections:

1. Click "Select Folder" and choose your competition files folder;
2. Select a location for your processed images or select "Save in Same Location\*" button;
3. In "File Type" – Select all three check boxes:
  - **Save as JPEG** and choose a Quality (e.g. 12);
  - **Convert Profile to sRGB**; and
  - **Resize to Fit**: and key in W=1920, H=1440

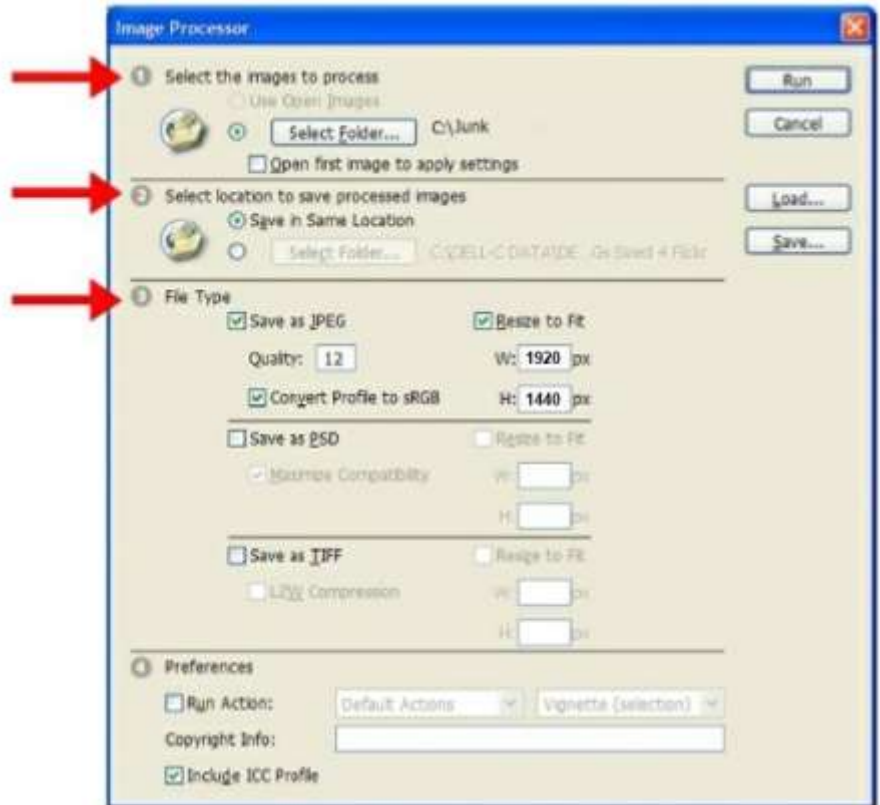

4. Select: **Include ICC Profile**

\* "Save in Same Location" creates a folder (named JPG) in the folder containing the images being processed.

Be sure that in "File Type" you've set JPEG, Quality 12, sRGB, W=1920, H=1440

I *always* put all the images to be sized into the same folder and select "Save in Same Location". This creates a folder (named JPG) in the folder containing the images being processed, making organization much easier.

I also use this method to create smaller files (which speeds processing) to use as I'm working on digital slide shows using *ProShow Gold*. It should work well whenever you need smaller files.
